

MonoBehaviour

```
classDiagram
    class MonoBehaviour
    class Main {
        +Material material
        +NoiseSettings settings
        -Transform viewer
        -void Awake()
    }
    Main --|> MonoBehaviour
```

The diagram shows a class hierarchy. At the top is the 'MonoBehaviour' class, represented by a rectangle with three horizontal compartments. The top compartment contains the class name. Below it are two empty compartments. At the bottom is the 'Main' class, represented by a rectangle with four horizontal compartments. The top compartment contains the class name. The second compartment contains '+ Material material'. The third compartment contains '+ NoiseSettings settings'. The fourth compartment contains '- Transform viewer'. The bottom compartment contains '- void Awake()'. A blue arrow points from the top of the 'Main' class to the bottom of the 'MonoBehaviour' class, indicating inheritance.

Main

+ Material material
+ NoiseSettings settings
- Transform viewer
- void Awake()
